

Myanmar emergency power supply

What is happening in Myanmar's power sector?

Myanmar's power sector has been severely affected by the ongoing political turmoil. The power sector has been spiralling downwards since 2021 with prolonged electricity blackouts throughout the country. Electricity generation has been declining, resulting in a widening power supply-demand gap.

Which cities are facing power outages in Myanmar?

The Irrawaddy "Major cities, including Yangon, Mandalay, and Naypyitaw, are facing power outages while industrial zones across the country are bracing for crippling power cuts and surging fuel prices," the World Bank said in its September 5 report "In The Dark: Power Sector Challenges in Myanmar."

Is Myanmar facing a power crisis?

"Major cities, including Yangon, Mandalay, and Naypyitaw, are facing power outages while industrial zones across the country are bracing for crippling power cuts and surging fuel prices," the World Bank said in its September 5 report "In The Dark: Power Sector Challenges in Myanmar." It blamed the February 2021 coup for the power crisis, saying:

Will increasing imports help ease the electricity supply shortages in Myanmar?

While increasing imports could help to ease the electricity supply shortages in Myanmar, it remains challenging under the current circumstances. Improving power sector financial viability and recovering customer confidence are critical for private sector capital mobilization to enhance the quality of electricity services.

Does Myanmar have a power supply-demand gap?

Electricity generation has been declining, resulting in a widening power supply-demand gap," the global development bank said. Even before the coup, Myanmar faced power shortages. In 2019, supply was 300 megawatts (MW) short of demand. The power supply-demand gap has widened since 2021.

Who manages Myanmar's energy sector?

Myanmar's energy sector is managed by the Ministry of Electric Power (MOEP) and the Ministry of Energy (MOE), which together account for over one-third of public sector revenue. Before May 2022, the two ministries operated under one single Ministry of Electricity and Energy (MOEE).
