

How many solar panel installers are there in France?

There are 721 installers based in France, which are listed below, in this article about French solar panel installers.

Does France have a solar energy sector?

The exponential growth of the solar photovoltaic energy sector in France has never stopped since its inception in the early 2000s. In 2022, the PV energy capacity in France amounted to approximately 17 gigawatts, making France the fifth European country for cumulative PV capacity that year.

What is France's largest solar project?

Built by French renewable energy giant Neon, the Cestas Solar Park is France's largest operational solar project at the moment with an enormous 300 MW of total solar capacity. Construction on the park began in late 2014 in Cestas, near the French border with Portugal, and the park came online in December 2015.

While residential solar PV is by no means a small market in France, most of the country's solar capacity is derived from large-scale solar utility projects. We'll be taking a close look at 15 of the most significant solar ...
