

Huge potential for NAWA's electrode technology in the global lithium battery sector; Mass manufacturing is scheduled to begin in 2023 at a new facility in France. [READ the ...](#)

All types of batteries can benefit from the Ultra Fast Carbon Electrode, but with the automotive industry now consuming 75 percent of lithium battery production and electric vehicles requiring ...

NAWA Technologies Ultra-Fast Carbon Electrode is a nano-based innovation that unlocks next-level performance for all types of batteries, particularly those used by electric ...

Nawa Technologies est jeune pousse disruptive (Deep Tech) fran  aise commercialisant des batteries    recharge rapide et    forte autonomie [1]. Les batteries contiennent des ...

A French nanomaterials company has developed a technology that it claims can significantly increase the storage efficiency of electric vehicle batteries. NAWA Technologies" ...

Research into nanomaterials at the CEA led to the creation of a spin-off company in 2013: NawaTechnologies. Founded by Pascal Boulanger, who chairs the board of directors, the ...

The company is developing and commercializing batteries with higher capacities, faster charging speeds, and longer lifespans. Its electrode material made from aligned carbon nanotube mats ...

Nawa Technologies pr  sentera    l'occasion du salon EICMA 2021 un prototype roulant de sa moto   lectrique Nawa Racer, embarquant une technologie lithium-ion et des ...

Nawa Racer, une   tonnante moto    supercondensateurs et batteries lithium. L'entreprise fran  aise Nawa Technologies, sp  cialis  e dans les supercondensateurs, sera pr  sente au ...

NAWA Technologies l  ve EUR13m lors de sa s  rie B NAWA a finalis   avec succ  s sa deuxi  me lev  e de fonds avec de nouveaux investisseurs tels que Bpifrance via le ...

NAWA's innovation is based on an innovative approach to the nanometric-scale manufacture of an electrode combining NAWA's 3D nanocarbon and nanoplatinum. It delivers ...

Les batteries    base de nanotubes de carbone de Nawa Technologies pourraient   quiper de quelques millions de v  hicules   lectriques    l'horizon 2025. La soci  t   vient

de lever 18,3 millions ...

Called the Ultra Fast Carbon Battery, NAWA Technologies' energy storage solution can be charged and discharged within seconds. And it can do so over a million cycles without any loss in performance, far in advance ...

Ludovic Eveillard, directeur général de Nawa Technologies: Nous avons développé une nouvelle électrode fondée sur une technologie de nanotubes de carbone ...

As France looks to be a leader in next-generation battery production, company NAWA Technologies has developed an innovative solution that could catch the eye of electric ...

French company Nawa technologies says it's already in production on a new electrode material that can radically boost the performance of existing and future battery types, delivering 3x the energy ...

NAWA Technologies, a French energy storage specialist, has unveiled a new carbon nanotube-based battery electrode design that they claim brings huge gains in battery ...

NAWATEchnologies est une start-up deeptech qui développe et industrialise une nouvelle génération de batteries permettant de stocker plus d'énergie, avec une vitesse de charge plus ...

6 · Nawa a fait sensation au dernier CES de Las Vegas en présentant NAWA Racer e-bike, une moto électrique intégrant un système de stockage hybride unique combinant les ...

Le NAWA Cube, batterie innovante basée sur des nanotubes de carbone verticalement alignés, dans le laboratoire de NAWA Technologies à Rousset. (Max ...

France-based Nawa Technologies (NAWA) has introduced a ground-breaking ultra-fast carbon battery with unique electrode materials, combining the best nano and clean ...

A Wide Range of Applications. When Saucier joined NAWA earlier this year, he set to work with the team to re-focus the business around three key areas - nano-based ...

Les batteries à base de nanotubes de carbone de Nawa Technologies pourraient équiper de quelques millions de véhicules électriques à l'horizon 2025. Lien vers l'article.

coordonnees: c/o stmicroelectronics - 190 ave celestin coq zi - 13106 rousset cedex / 0695 200 201 / nawatechnologies sa / societe anonyme au capital de ...

Kouros reprend les rênes de Nawa Technologies, qui possède une technologie de production de

Nawa technologies batteries Australia

nanotubes de carbone verticalement alignés (VACNT). Lien vers l'article (FR) ... Nawa quipe ...

French company Nawa technologies says it's already in production on a new electrode design that can radically boost the performance ...

Et de trois pour Nawa Technologies. Le fabricant de supercondensateurs annonce le 20 janvier une levée de fonds de série C d'un montant de 18,3 millions. ... Concrètement, la technologie s'applique aux ...
