

Welcome to Renewables NB! This map shows renewable energy installations throughout the province of New Brunswick. For more information on renewable energy in New Brunswick, head to our main website, renewablesnb.ca. Renewables NB is coordinated by EOS Eco-Energy. EOS is an environmental charity based out of Sackville, NB.

In order to achieve this, efforts will focus primarily on the building sector as well as plans to introduce renewable energy. Improving energy efficiency means that we can reduce our energy bills, reduce energy demand, increase energy security, reduce our greenhouse gas emissions through cost-effective means, and contribute more towards an ...

6 · Natural Resources Canada's electricity predevelopment programme is providing C\$1.3m to NB Power for the development of a reliability inter-tie between New Brunswick and Nova Scotia - the first phase of a modified Atlantic Loop. This is complemented by C\$10.6m from the strategic interties predevelopment programme.

Today, the Honourable Steven Guilbeault and the Honourable Dominic LeBlanc announced over \$1 billion in additional investments to ensure that as New Brunswick's electricity demands grow substantially over the coming years, we meet demand with clean electricity that is both reliable and affordable. NB Power estimates the following investments could help power ...
