

One of Africa's longest wars shifted toward a conclusion in July when France recognized Morocco's claim of sovereignty over the Western Sahara. That action, alongside Morocco's military advantage, effectively will leave the indigenous Sahrawi independence movement with no choice but to eventually settle for some form of autonomy within Morocco. ...

We think that Morocco will continue to focus its foreign policy on increasing international support for its claim over Western Sahara and supporting domestic economic development. ... We do this by utilizing a best-in-class technology platform and blended learning solutions that maintain the personal element of development. Fitch Ratings Research
