

Neoen bess Australia

Who is Neoen Australia?

Neoen Australia - Founded in 2008, Neoen is one of the world's leading independent producers of exclusively renewable energy. Neoen has been contributing to Australia's energy transition for over a decade. It has over 4 GW of renewable energy assets in operation or under construction and has invested more than \$4 billion in the Australian market.

What makes Neoen unique?

Delivering clean energy 24/7 - our first baseload contract of 70 MW with BHP combines wind from Goyder South, storage from Blyth Battery and our energy management smarts. Neoen acknowledges the Traditional Owners of Country throughout Australia and recognises their continuing connection to land, waters and culture.

Will Neoen provide a 270 MW / 540 MW service?

This service will be underpinned by Stage 1 and Stage 2 of Neoen's Western Downs Battery, both sized equally at 270 MW / 540 MWh.

Will Neoen build a battery energy storage system at 173 Brays Lane?

Revealed by planning documents filed on December 15, 2020, Neoen is seeking consent to construct, operate and maintain a Battery Energy Storage System (BESS) of 500 MW and up to 100 MWh at 173 Brays Lane, Wallerawang, New South Wales.

Is Neoen launching a 100MW / 200MW battery storage project in Australia?

Image: Victoria State government. Neoen said yesterday that its 100MW / 200MWh battery storage project in the Australian Capital Territory (ACT) is underway, after the developer issued a notice to proceed to its construction partners Doosan Heavy Industries and Construction and Doosan GridTech.

What does Neoen do?

Neoen acknowledges the Traditional Owners of Country throughout Australia and recognises their continuing connection to land, waters and culture. We pay our respects to their Elders - past, present and emerging. A fun, interactive game to discover the different careers in renewable energy, now available for students in years 9-12.
