

What are the features of ingecon solar inverter?

Up to 13.5A of maximum input PV current along all the MPPT voltage range. CAN Bus 2.0 communication for the batteries' BMS (battery management system). Suitable for indoor and outdoor installation (IP65). Free software INGECON SUN Monitor for system monitoring. It can operate as a pure solar inverter, allowing to add the batteries at a later stage.

What are the features of ingecon Sun monitor?

Extended technical information Up to 13.5A of maximum input PV current along all the MPPT voltage range. CAN Bus 2.0 communication for the batteries' BMS (battery management system). Suitable for indoor and outdoor installation (IP65). Free software INGECON SUN Monitor for system monitoring.

What is ingecon solar monitor?

Free software INGECON SUN Monitor for system monitoring. It can operate as a pure solar inverter, allowing to add the batteries at a later stage. Modbus TCP /Wi-Fi communication with single-phase EV chargers. Configuration of the battery charge /discharge times. Relay for the neutral to earth connection for critical loads in TT systems.

How can ingecon Sun monitor be monitored?

Thanks to the built-in EMS, the installation can be monitored at all times via a PC or mobile phone with the free INGECON SUN Monitor application, available at Play Store and App Store. Extended technical information Up to 13.5A of maximum input PV current along all the MPPT voltage range.

Inversor híbrido para instalaciones monofásicas. Puede trabajar tanto en modo aislado como en modo autoconsumo con acumulación de excedentes. Admite un voltaje en batería variable ...

INGECON SUN Training. Productos relacionados. Contacto. ... El inversor de baterías STORAGE 3Power Serie C es un equipo bidireccional que puede ser utilizado en sistemas conectados a ...

The INGECON® SUN STORAGE Power is a three-phase bidirectional battery inverter that can be used in grid-connected and standalone systems. This inverter offers a high power density in a ...

The INGECON® SUN STORAGE 350TL is a three-phase bidirectional converter for energy storage systems. Maximum DC voltage (1,500 V) and wide voltage range. Awesome power density, with up to 350 kW. It features an innovative ...
