

Will West Africa Energy become the biggest power plant in Senegal?

West Africa Energy needs to get a jump on renewables--and becoming the biggest power plant in the country. West Africa Energy's 300-megawatt (MW) combined-cycle plant in Cap des Biches, Dakar, Senegal is in need of the right gas-power technology to support the needed growth of renewables in the country.

Are emerging energy paths in Senegal based on EEG?

This study provides a contribution to fill that gap by exploring the emerging energy paths in Senegal through the lens of EEG, using the framework of regional path creation processes to analyze qualitative interview data from 17 experts in the Senegalese energy sector.

Who regulates electricity in Senegal?

These include the Ministry of Petrol and Energy, the Regulatory Commission of the Electricity Sector (CRSE-Commission de r  gulation du secteur   lectrique), the Senegalese Agency for Rural Electrification (ASER-Agence S  n  galaise d'Electrification rurale), the National Agency for Renewable Energy (ANER), and Senelec.

How has the Senegalese energy sector changed over the years?

While the Senegalese energy sector has for decades been characterized by the dominance of the Ministry of Energy and the state-owned power utility Senelec, reforms of the sector have been carried out with multi-actor involvement and under the strong influence of bi- and multinational institutions.

Does Senegal have a bioenergy potential?

Senegal's bioenergy potential has not yet been fully tapped. The group brings together all technical and financial bilateral and multilateral partners working in Senegal. The purpose of the TFP is to consult with each other, harmonize interventions and adopt common positions in the dialogue with the government .

What is the second emerging path in the Senegalese energy sector?

The second emerging path in the Senegalese energy sector arises from the mini-grids and stand-alone solutions, markets not yet penetrated by foreign investors. These give local companies an opportunity to shape the market according to their capabilities, the needs of the population, and local conditions.
