

# Off grid battery setup São Tomé and Príncipe

Where can I install solar panels in São Tomé?

São Tomé is an ideal location for solar energy. Solar panels can be installed in existing buildings or in stand alone 20 foot containers with the help of Offgridinstaller, who can supply and fit any size of solar system with high quality lithium ion battery storage which can generate and power year round storage.

How much solar power does Principe have?

The island of Principe has solar irradiation levels that range from 700 to 1000 kWh/m<sup>2</sup> /year. The average daily photovoltaic power output is 3.72 kWh per installed kWp [82 ]. Fig. 18 shows a map of the solar resources on the island.

Are off-grid solar products a viable solution?

Off-grid solar products may often be a more feasible solution for households living in areas where the grid infrastructure is not available. The market for solar products is not yet developed in STP. Very few products are distributed, and few households use them.

Is EMAE dragging down the economy of São Tomé & Principe?

The troubles afflicting utility EMAE are dragging down the economy of the island nation. The United Nations Development Program is seeking consultants to conduct feasibility studies for a 2 MW solar project and three mini hydropower plants ranging in size from 1.15-2 MW in São Tomé; and Principe.

What is the population of Sao Tome and Principe?

The famous volcanic plug 'Pico Cao Grande' is 663 m high and popular with tourists. The main island, Sao Tome, has most of the 200,000 population, while Principe has only 8,000 people. The islands total 1,000 km<sup>2</sup>.

Why did the hydropower plant in Principe Island degrade?

As the demand for electricity grew, the country ceased the development of new projects for hydropower, and increased the installation of diesel generator units. Some of the mini hydropower plants started to degrade due to lack of proper maintenance. This was the case for the plant installed on the Papagaio river of Principe Island.
