

L'ONERA effectue actuellement la rénovation du système GRAVES, dans le cadre d'un contrat pour la DGA (Direction Générale de l'Armement), en cotraitance avec l'entreprise DEGREANE HORIZON. L'objectif est de garantir son fonctionnement jusqu'en 2030, tout en améliorant certaines de ses performances.

The DTIS (Information Processing and Systems Department) conducts study and research related to methods and tools for certification, autonomy, multidisciplinary design, systems of systems, intelligence and surveillance, applied mathematics. Its activities concern goals in aeronautics, space and defence, with these main areas of application:

It is developed within the Information Processing and Systems Department of, the French Aerospace Lab. The Final Workshop of the SMAC project was organised at ONERA in Toulouse on June 16th, 2016. 56 participants . Final Program. 08.45 Welcome (Ph. Bidaud, B. Lamiscarre) 09.00 Overview ...

Stand Alone Systems. Stand Alone Solar Systems are systems where Solar System is the sole electrical providers of power energy. Solar Modules will operate electrical loads and charge Batteries during Day time. Batteries will ...

OneraSystems is one of the forerunner companies in providing alternative energy sources through solar systems for mobile networks and telecommunications in Egypt, North Africa, and the ...

Ce type de solution est très adaptés aux personnes ou sociétés qui souhaitent d'abord réduire leur facture énergétique et qui sont raccordées au réseau électrique national de distribution ...

ONERA's teams have designed and developed the GRAVES space surveillance system to establish and maintain a database of satellites flying over France at altitudes of less than 1,000 kilometers. ... These are fed into the orbital processing algorithms developed by ONERA's researchers to calculate the orbital parameters of the detected ...

Le département Traitement de l'Information et Systèmes mène des études et recherches pour maîtriser la conception, les opérations et l'autonomie des systèmes aérospatiaux. Le département met en oeuvre ses compétences dans les domaines de

l'aéronautique, de l'espace et de la défense : avions (avions de transport, avions de combat, drones, dirigeables, hélicoptères ...

Eindhoven - April 28, 2022 - Onera Health, a leader in transforming sleep medicine and remote monitoring, announced today that its wholly-owned subsidiary in the Netherlands, Onera B.V., has received 510(k) market clearance from the U.S. Food & Drug Administration (FDA) for its ground-breaking system for Polysomnography (PSG) studies, Onera STS, paving the way for ...

Mission. Our mission is to develop and realize renewable energy projects regionally, and internationally. We are genuinely committed to bring the highest value to our various stakeholders: the shareholders, the customers, the employees and the community at large.

Quality, Environmental, Occupational Health & Safety and Energy Policy "Multi-Purpose Safe & Environment Friendly Solutions, ANYWHERE" OneraSystems will endeavor to be the leader provider, in quality and market share, of engineering services and integrated power supply systems for the telecommunications industry and other related fields in Egypt.

Applied mathematics and scientific calculation Systems identification and control Perception and information processing Artificial intelligence and decision-making Systems and software engineering Cognitive engineering and human-system interaction

It opens new horizons for the use of Solar Energy in your home providing a unique turnkey system to meet all your energy needs. SolGuard(TM) eliminates the need for diesel power and is the right step that paves the way for a revolution in the world of Solar Energy applications.

OneraSystems is hiring Proposal & Tenders Engineer Job Description Maintain and develop the sales force structure, processes, and systems to meet the needs of customers through the most economic ...

RAMSES-NG and SETHI, the airborne SAR systems developed by ONERA, integrate new generation of radar and optronics payloads. They can operate over a wide range of frequency bands from UHF-VHF, to X-band including L band with long range, very high resolution, polarimetric and interferometric capabilities. Collected and processed Data are exploited for ...

Onera STS includes the Onera STS I System, which is CE marked in Europe, and the Onera STS System, which was cleared the the Food and Drug Administration for use in the United States. By clicking "Accept All Cookies", you agree to the storing of cookies on your device to enhance site navigation, analyze site usage, and assist in our ...

TIS in brief. This field covers what is usually referred to as sciences and technologies of information and communication, the main components of which are automatic control, signal and image processing, robotics, digital simulation, system and process design and optimization, computer systems engineering, knowledge

engineering and cognitive processes.

Omnishelter® integrates their shelters and cabinets with all necessary ancillary sub-systems such as air conditioning systems. Omnishelter® design and manufacture shelters and cabinets in accordance to the latest technological innovations in respect of: Internal and external environmental conditions. Equipment safety and protection.

The Onera Sleep Test System (STS) uses breakthrough technology to bring gold-standard quality of clinical-grade PSG diagnostics and monitoring directly to the patients' bed--whether in the hospital, at a sleep lab, or from the comfort of home -- measuring and recording multiple physiological parameters related to cardiovascular, respiratory and brain functions.
