

Palestine weco lithium battery

Why should you choose WECO lithium batteries?

WeCo design and produce lithium batteries equipped with the highest quality components. Each application has its own Lithium Chemistry cell in order to guarantee the highest durability and Safety. WeCo has developed one of the most advanced BMS with active and passive equalizer with a real-time control on every single cell.

What color is a WECO lithium battery?

Blackcolor model. The weco lithium battery is one of the best storage systems that can be purchased on the market. It is the only lithium battery model on the market patented to operate in high and low voltage thanks to a double BMS. Weco lithium battery has a 10-year warranty.

Where are WECO batteries made?

WECO is currently operating a production line in China. It plans on expanding by activity the production line at their facility in Florence, Italy. Their first batch was sold across Europe in July of 2020, But from November 2020, the 5K3 HV/LV batteries made its way to the USA.

How do I install the WECO 5K3 Universal lithium battery?

The weco 5k3 universal lithium battery is supplied as standard with accessories to be installed on the wall by fixing it to the wall (recommended for one unit only) or superimposed (recommended for 2 or more units) using the brackets included in the package. It is not necessary to purchase a cabinet or an external accessory for its assembly.

WECO batteries come with 10yr warranty and +7000 cycles AT 100%DOD and can charge at C1. What is key is to get the closed loop connection (digital coms) right. You need to crimp the RJ45 cable correctly to get the digital coms. Once you do, GX device will actually see WECO and display it in the device list. Here is the WECO to Victron pinout:

The new generation of WECO 07.EMA series lithium batteries are designed to provide emergency power for elevator emergency lighting, phone, and alarms bells inside the cabin. These batteries are manufactured from safe and durable materials that increase lifespan, supply three times greater energy density, improve safety and boost charging speed.

100 Ah, 48 VDC, 5200 Wh, voltage range 50,5...56,0 VDC, charge current 100 A, discharge current 100 A, cycles 7000, lithium battery LiFePO4, interface (CAN, RS232, RS485, Bluetooth, WiFi), IP20, serial/parallel. The Weco ESS is a modular, robust and durable lithium-ion energy storage unit. An integrated BMS monitors all relevant parameters and transmits data and alarms.

The Weco 4K4L Battery is a lithium-ion battery with a capacity of 4.4kWh and a voltage of 48V. It comes with an LV kit included, which makes it easier to install and use. This battery is suitable for both residential and commercial use, and it can be used for various applications, such as solar energy storage, backup power, and off-grid systems.

The WeCo 4K4L Battery is a lithium-ion battery with a capacity of 4.4kWh and a voltage of 48V. It comes with an LV kit included, which makes it easier to install and use. This battery is suitable for both residential and commercial use, and ...

WeCo 5K3-XP 5.3kwh 51.2V Lithium Battery ships packaged complete, with mounting bracket and LV cables. The DUAL VOLTAGE module can be wall mounted or stacked and used in a Low Voltage(48.5-58.4Vdc) configuration or in a High Voltage(80/200-750Vdc) configuration.

WeCo 5K3 Dual HV/LV 48v lithium battery pack has dual BMS to be used in high and low voltage. It has more than 7800 100% discharge cycles. Through its Wi-Fi accessory we can monitor via app and it supports 5G.

The WeCo 4K4-LT battery is a lithium battery with a capacity of 4.4 kWh and 48V. This battery is suitable for both residential and commercial use and can be used for various applications, such as solar energy storage, backup systems and off-grid systems. It is very easy to install and is compatible with most inverters on the market today.

The WeCo lithium battery is expandable and allows up to 15 batteries to be connected in parallel at 48V with the internal low voltage BMS without any accessories to make systems of up to 79.5 Wh useful. The universal WeCo ...

Hub.; Universal Compatibility: The highest compatibility on the market and can work with communication with the main brands on the market.; Double BMS for low and high voltage; Allows 100% discharges : The WeCo lithium battery has 7,800 cycles at 100% discharge

Weco Lithium LFP Solar battery 5.3 KWh/48V | 7000 Cycles. Weco 5.3KWh/48V/7000 Lithium-LFP Solar-battery is a high-performance energy storage solution designed for solar applications. With a capacity of 5.3kWh and a voltage of 48V, this battery offers reliable and efficient power storage for residential and commercial solar systems.

The battery has built-in wifi enabling it to be controlled and monitored online by technicians in Italy and this has proven invaluable for installers in the field. With recent price decreases, Weco Is now becoming an obvious choice for installers wanting the best value for money for their customers without compromising on quality.

Weco 5.37KWh/48V/7000 Lithium-LFP Solar-battery is a high-performance energy storage solution designed for solar applications. With a capacity of 5.37 kWh and a voltage of 48V, this battery offers reliable and efficient power storage for residential and commercial solar systems.
