AIMS Power inverters are a great way to acquire mobile, off-grid and/or backup electricity in Panama. The Panama electrical grid, which operates on 120 Vac 60 Hz, goes down frequently and leaves residents of the area powerless. AIMS Power provides products to help residents of Panama achieve energy independence, and we'll deliver them right to your doorstep for the ...

Normally, never a problem as the panels bring us back up to 100% around midday. However, during the rainy season you may have consecutive days with little or no sunshine. This year we had almost a week of rain and cloud and for the first time our 4 panels system never fully charged our batteries. Each day our total power became less and less.
