

Philippines gnX greenex energy

What is Gen X energy's new joint venture with Ace enexor?

A new joint venture has been launched between Gen X Energy and ACE Enexor to support development of Batangas Clean Energy's 1,100 MW combined cycle power plant that will utilise green hydrogen as fuel.

Can liquified natural gas and green hydrogen be used to power the Philippines?

Capable of using liquified natural gas (LNG) and green hydrogen as fuel to provide power to the Philippines energy grid, the project will also lower the sector's carbon emissions as part of the energy transition.

Who is greenex energy?

Greenex Energy is an emerging leader in base oils and petrochemical products trade, distributing them to serve the markets in Africa, Europe, Asia and the Americas. The company stands for high-quality commodities.

How will green hydrogen power plant help the Philippines?

By using green hydrogen as fuel, the power plant will provide firm power to the grid in the Philippines to reach the growing demand for renewable energy and reduce the country's reliance on coal fired power generation.
