As a Clean Energy Solutions Provider for regional markets and industries, both nationally and internationally, we always keep an eye on the entire Renewable Energies and electricity refinement value chain.

In 2017, we launched "Scale up" to make the company fit for the future and develop it into a Clean Energy Solution Provider, a provider of clean energy solutions. With this programme, we have transferred our expertise from the successful development, project planning and realisation of onshore and offshore wind farms to other fields.

We can help you to make a successful and safe transition to a CO2-free future, despite increasingly difficult energy procurement and confusing regulations. Together with our clients, we find tailored solutions that are also financially viable in the long term.

A global climate-neutral energy supply is a goal not just of the global climate protection agreement, but also our vision. As a Clean Energy Solutions Provider, we are committed to the energy transition and to climate
