

What is the Polish Energy Storage Association (Pesa)?

The Polish Energy Storage Association #PESA (Polskie Stowarzyszenie Magazynowanie Energii #PSME) is a pivotal organisation dedicated to advancing the energy storage industry in Poland. PESA is crucial in shaping legislative frameworks concerning energy and energy storage, ensuring that these regulations support industry growth and innovation.

What are the new energy storage rules in Poland?

Poland's new rules state that energy storage facilities over 10MW require licensing to ensure they can provide services to Poland's National Power System\ . Facilities 10MW or smaller do not need licensing but do need to register with the transmission system operator or distribution system operator for their area.

Why should you join the energy storage community in Poland?

Membership offers the advantage of being part of a community that actively shapes the future of energy storage in Poland, ensuring that member companies are well-informed, well-connected, and well-prepared to thrive in a rapidly evolving sector.
