

Who is Powerbox systems Americas?

Powerbox Systems Americas is the exclusive distributor of Powerbox Systems products in the entire Americas! Since the company's foundation, PowerBox-Systems GmbH has set the standard for modern, secure power supply systems for use in models. Now also the most advanced transmitters in the industry with the CORE and the ATOM!

What is a powerbox & how does it work?

PowerBox is a stand-alone fully assembled power unit, that doesn't require expensive installation costs by a qualified electrician.

What makes Powerbox different?

PowerBox is available in two size/capacities: from a multitude of individual components on the market, matched for compatibility and optimum performance. Solid quality builds: pre-wired, pre-assembled, factory tested. Management & monitoring system - battery/charging status. PowerBox virtually a plug & play system.

The PowerBox Pioneer is the latest development of a 14-channel power supply unit without voltage regulation, designed for HV servos. Since the unit has no voltage regulators, nor the large heat-sink surfaces required for them, it offers ultra-compact dimensions. Even so, the Pioneer still provides redundancy, as is the standard for all power supply units made by PowerBox-Systems.

Die PowerBox-Systems GmbH setzt seit ihrer Unternehmensgründung Maßstäbe für moderne und sichere Stromversorgungen im Modellbau. Inzwischen arbeiten rund 25 Mitarbeiter mit Leidenschaft in der Entwicklung, der Produktion, im Service und in der Verwaltung. Wir können mit Stolz behaupten: Viele unserer Innovationen, Ideen und Produktentwicklungen sind aus ...

The benchmark for modern power supply. The PowerBox systems set standards for modern power supplies in model aircraft. Our systems have been used successfully by ambitious pilots since June 2001. Our PowerBox battery backers are far more than just redundant dual power supplies or electronic on/off switches. In recent years, many technical innovations have ...

The PowerBox Evo supports all current telemetry systems: PowerBox, Jeti, Futaba, Multiplex, Graupner, Spektrum and JR, which means that the voltage of both batteries can be monitored conveniently from the transmitter. It is also possible to read off the state of charge of the batteries at any time using the two tri-colour LEDs.

Das Premium Servo Kabel wird speziell für PowerBox-Systems hergestellt. Das Kabel ist hochflexibel und aus sehr dünnen Einzeladern gefertigt, um ein Maximum an Strom durch den gegebenen Querschnitt von 0,35mm² zu bekommen. Die Ummantelung ist aus einem speziellen Material, welches

auch in der manntragenden Luftfahrt Verwendung findet.

With the PowerBox Terminal program you can update the software of your PowerBox devices with little effort. You can find out what new features are available for your product in the Forum. All software updates are of course free of charge. PowerBox Terminal (Win ...

Das PBS-TAV ergänzt die PowerBox Sensor Palette mit einem hochwertigen Geschwindigkeits-Sensor. TAV steht für True-Airspeed-Vario. Wie der Name schon sagt, kann der PBS-TAV Sensor die Fluggeschwindigkeit, die Höhe und die Steigrate messen. Da die Informationen zur Geschwindigkeit und Höhe in nie dagewesener Genauigkeit vorliegen, kann daraus die ...

The PBS-TAV complements the range of PowerBox sensors with a high-quality speed sensor. TAV stands for True Airspeed Vario, and, as the name implies, the PBS-TAV sensor is able to measure the model's flying speed, altitude and rate of climb. Since the speed and height information are presented with unprecedented precision, the climb rate can be calculated from ...

Das GPS III erkennt, an welchem Fernsteuersystem oder PowerBox/iGyro es angesteckt ist und richtet die Kommunikation vollkommen automatisch ein. Mithilfe des PowerBox PC- oder Mobile Terminal kann man für Futaba verschiedene Slots auszuwählen. Für HoTT und Multiplex können die Höhe oder Entfernung verschiedene Alarmer eingestellt werden.

The iGyro 3xtra ushers in the second generation of the iGyro family. The new iGyro 3xtra boasts a completely revised regulatory algorithm and set-up procedure, expanded features and enormously enhanced performance, making it the new "State of the Art".. In contrast to its predecessor - the 3e - the new iGyro no longer incorporates delta and V-tail mixers.

The menu system is clearly and logically laid out, and includes many new functions as well as the familiar menu points - and all in two languages: German and English! Important new features implemented in the new Competition SR2 include the most efficient and sophisticated iGyro technology ever developed by PowerBox-Systems.
