

Where is Gujarat's First Solar Village?

Masali Solar Village: In a significant milestone for the country's solar energy program, the Masali village in Gujarat's Banaskantha district has become the country's first 'solar village' on the border.

What is Banaskantha solar power project?

A committee, chaired by DC Mihir Patel, was formed to ensure 24-hour electricity supply in villages near the border. This initiative aims to transform 17 villages in Banaskantha district--11 from Saradhi Vav Taluka and 6 from Suigam Taluka--into solar-powered centers.

Does Masali have solar power?

The village, located 40 km from the Pakistan border, has achieved 100% solar power generation. With a population of 800, Masali is now in the spotlight for its successful solar energy program. A total of 199 houses in the village have been equipped with solar panels, generating 225.5 kilowatts of electricity--more than the needs of the households.

Did solar power end the problem of electricity in madhpura Masali?

Sarpanch of Madhpura Masali Group Gram Panchayat Magniram Rawal and village leaders said that the problem of electricity in the village has permanently ended due to solar power. "Now, we have got permanent freedom from paying light bills," said Rawal.
