

Provaris chief technology officer Per Roed (source: Provaris) Extension to barge storage solutions with AIP. Leveraging the FEED-level engineering, safety studies and design approval for the H2Neo carrier received in December 2022, Provaris has launched the H2Leo compressed hydrogen floating storage solution, receiving AiP from ABS.

Provaris Energy (ASX:PV1) specializes in green hydrogen projects, focusing on production, export, and compressed shipping solutions with proprietary technology.

Provaris' \$4.5 billion Tiwi H2 (Hydrogen) Project has the potential to be a first-mover in the world's transition from fossil fuels to zero-carbon energy, and will demonstrate the commercial advantages of compressed hydrogen production and export from the Northern Territory to markets in the Asia-Pacific region.

Provaris Energy Ltd (ASX: PV1, Provaris or the Company) is pleased to advise of the launch of a compressed hydrogen floating storage solution which has applications across many hydrogen industries seeking cost-effective storage solutions at scale. ?

Provaris Energy Ltd (ASX:PV1) has cut the ribbon on a concept design study for its proposed green hydrogen project in the Tiwi Islands. The Tiwi H2 Project is designed to export 100,000 tonnes of green hydrogen every year from 2027 over a 30-year mine life, and this concept design study lights the fuse for future development.

About Provaris Energy. Provaris Energy Ltd engages in the development of hydrogen production and export projects in Australia and internationally. The company owns 100% interest in the Tiwi Islands Hydrogen Export project located in the Northern Territory, Australia. It also develops compressed hydrogen storage and transportation solutions.
