Who is Red Box Energy Services?

Red Box Energy Services is a Marine Heavy Transport service provider who focus on high-value niche markets in the offshore and onshore energy services industry where high standards require capital, technical skill, operational capabilities, client focus and dedication to safety and environmental stewardship.

Does Dominica have a national energy plan?

Dominica drafted a national energy plan in 2011 and revised it in 2014. The objective of the plan is to make electricity generation on the island self-sufficient by 2020 using sustainable and indigenous resources.

Can Dominica develop geothermal power?

Dominica is expected to develop more than 100 MW of geothermal power and has secured funding for early-stage investment through the World Bank's Geothermal Development Plan. The island may be able to secure additional international and private sector funding for these projects.

Does Dominica heavily rely on fossil fuels?

Despite having three hydroelectric plants on the Roseau River that produce 27.4% of Dominica's electricity supply in the present day, Dominica is not heavily reliant on imported fossil fuels as other islands in the region. In the 1960s, hydropower supplied 90% of Dominica's electricity.

Does Dominica generate solar power?

Dominica has a high solar potential with a solar resource of 5.6 kWh per square meter per day. The government has installed LED streetlights (in 2013 and 2014). Dominica also has approximately 30 MW of wind power potential, some of which is under development.

Who owns Dominica Social Security & Light & Power?

Dominica Social Security holds a 20% share and Light and Power Holdings, a subsidiary of Emera Corp., holds a 53% share in Dominica Social Security & Light & Power. The remaining 27% is owned by employees, private citizens, and local corporations.
