Reflect Orbital: sunlight at night, on-demand (reflectorbital) 3 points by jjmaestro 7 months ago | hide | past | favorite | 5 comments: jjmaestro 7 months ago | next. Reflect Orbital is developing a constellation of revolutionary satellites to sell sunlight to thousands of solar farms after dark.

Reflect Orbital General Information Description. Developer of solar light reflecting panels designed to provide reflected sunlight at night. The company uses its reflectors in space to shine sunlight on panels at night and to offer sunlight to increase the output of existing infrastructure without additional costs, enabling solar farm owners to generate electricity even after sunset.
