Is Rept battero 320ah better than 280ah?

Leveraging Rept Battero's top-tier technology, the 320Ah energy storage cell boasts impressive features, including the same size as the 280Ah square cell while delivering superior performance in terms of high energy output, long lifespan, and exceptional safety.

What is a Rept battery?

Key Features and Advantages: High Energy Density: The REPT battery cell, with a remarkable energy density of 320Ah, offers an impressive power-to-weight ratio. Ideal for applications requiring compact and lightweight energy storage solutions, such as electric vehicles (EVs), renewable energy systems, and portable devices.

Does Rept battero make 320ah batteries?

As of Q3 this year, mass production capacity has been attained, making Rept Battero a pioneer in the industry for achieving mass production of 320Ah batteries. UL 1973 is a safety standard specifically designed for energy storage battery systems in North America.

How did Rept perform in 2022?

Remarkably, in 2022, energy storage customers ranked among the top five contributors to REPT's revenue, accounting for an impressive 11.7%. In the initial half of 2023, REPT achieved significant milestones by securing a series of substantial overseas orders.
