Large-scale renewable energy developer Intersect Power has secured a revolving credit facility to the tune of US$800 million to support the deployment of its solar, energy storage and wind...

The last grid-scale BESS that Energy-Storage.news reported on in Brazil was a 30M/60MWh non-wires alternative (NWA) project from transmission system operator (TSO) ISA CTEEP. Energy-Storage.news" publisher Solar Media will host the 3rd annual Energy Storage Summit Latin America in Santiago, Chile, 15-16 October 2024. This year"s events ...

Solar Media Market Research, which is the in-house team of experts at Energy-Storage.news" publisher Solar Media, tracked 60 new planning applications for large-scale battery storage projects in the UK last year, representing some 1.2GW of capacity.Lauren Cook said that activity has increased year-on-year in this regard and business models are changing quickly.

Utility-scale renewables developer Intersect Power has secured US$2.6 billion in financing for the construction and operations of a portfolio of solar and energy storage projects in California and Texas. ... which will be colocated with a 453MWh battery energy storage system, with the financing led by MUFG and Santander Bank, and including ...

Intersect Power has secured financing commitments totalling $837m for the construction and operation of three standalone battery energy storage systems (BESS) in ...

Iberdrola is one of Spain"s largest utilities and is also active as an independent power producer (IPP) internationally. Image: Iberdrola. Utility and independent power producer (IPP) Iberdrola will deploy battery energy storage system (BESS) projects in Spain adding up to 150MW/300MWh, to be co-located with

existing PV plants.

However, a new factory with 16GWh of annual production capacity dedicated to cells for stationary battery storage applications, set to be built in Arizona and announced last year, is currently on hold. The decision came after an official groundbreaking ceremony had already taken place in March.

United States battery energy storage operations 2023. 01 November 2023. Summarizing the current state of storage O& M and management as conducted in North American markets. $5,990. Commodity Market Report Global lithium-ion battery supply and demand: Q1 2024. 29 April 2024.

HOUSTON, July 17, 2024--Intersect Power, LLC, ("Intersect Power" or "Intersect"), announced today the closing of two separate transactions representing an aggregate of $837 million of financing ...

The three sites will move from concept to commissioned in under 12 months and each will provide a capacity of 320 MWh of battery storage with a two-hour duration. These batteries provide additional flexibility to Intersect"s Texas operating fleet, offering 1.2 GWp of solar power with 1 GWh of battery storage.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModulelTech conference dedicated to the U.S. utility scale solar sector.

It is also the Oregon-headquartered battery energy storage system (BESS) integrator"s third such deal with Eve Energy. The two signed a 10GWh supply agreement last June, with some of those cells to be used at Powin"s 850MW/1,680MWh Waratah Super Battery for developer Akaysha Energy in Australia. In 2021, a "multi-gigawatt" two-year deal ...

Progress has also been made at the company"s data centre in Saint-Ghislain, Belgium, with a battery storage project fully installed, tested and being prepared to go into full service. When the Saint-Ghislain retrofit was announced in December 2020, Google described it as a first step in taking data centres "from climate change problems to ...

The majority are paired with battery storage. It says that it expects to bring another 2.2GW of generation projects and 1.4GWh of storage online by the end of this year.

Saft"s new Intensium-Shift battery storage system: 30% more energy, lower footprint, maximizing renewable integration . 30/08/2022. Saft powers the transition of small Italian islands to renewable energy . 11/05/2022. Saft ...

Its new features and updates are designed to enable effective control and dispatch in an industry of ever-larger battery energy storage system (BESS) projects, "multi-gigawatt-hour" projects in fact, while helping respond
