

Saint Martin poyry energy

Who is Pöyry PLC?

Pöyry PLC (Finnish: Pöyry Oyj), which merged in 2019 with Swedish company ÅF into AFRY, was an international consulting and engineering firm that served clients globally across the energy and industrial sectors and provided local engineering services in its core markets.

How much does electricity cost in Saint Martin?

For Sint Maarten, the equivalent rates are roughly \$0.35/kWh. Like many islands, Saint Martin is highly dependent on imported fossil fuels, leaving it vulnerable to global oil price fluctuations that directly impact the cost of electricity.

What is Sint Maarten's national energy policy?

renewable energy.¹⁰ The plan also emphasizes the need to raise awareness of energy conservation among individuals and businesses through communication campaigns. Sint Maarten developed a National Energy Policy (NEP) in 2014 that aims to mitigate the impact of energy use on the environment while reducing electricity tariffs.

What sectors does Pöyry work in?

Our focus sectors are power generation, transmission & distribution, forest industry, chemicals & biorefining, mining & metals, transportation, water and real estate sectors. Pöyry has an extensive local office network employing about 7,000 experts.

What makes Pöyry unique?

Our core strength is the ability to combine expert knowledge of the markets with first class quantitative analysis to offer the highest quality commercial, economic, strategic, and policy advice. Pöyry is an international consulting and engineering company.

Bouygues Energies & Services has responded to the growing demand for energy in the French West Indies with the construction of an extension to the EDF power plant on the Caribbean island of Saint Martin. Since 2016, this new plant has ensured the supply of an additional 25 MW of power to the French overseas territory.
