Designed with SEPLOS BMS 3.0; Personalized customization: ... Configuration: 1P16S: Nominal Voltage(V) 51.2V: Nominal Capacity(Ah) 280Ah: Working Voltage(V) 42V~58.4V: Standard charge/discharge

good morning community I wanted to integrate bms selpos 3.0 starting from an elfin ew1 or usb rs485. Following a first test and manual any help is welcome. Seplos Manual. 2024-10-07T22:00:00Z (UTC) #_____...

Da ich selber gerade auf der Suche war möchte ich diesem Trööt gerne die Info verpassen, dass für das SEPLOS V3 BMS, auf dem PC/Laptop, nicht mehr die Software BatteryMonitor zu nutzen ist, sondern das neue BMS-Studio. ...

SEPLOS - Victron Connection. How to set CVL, CCL and DCL through the BMS. By changing the below settings in the SEPLOS BMS configuration, the BMS has full control over the Victron system and can set CVL, CCL and DCL as per your needs. It all works great but is not really straight forward.

Hi everyone. I would greatly appreciate your help. Yesterday, I downloaded Battery Monitor windows software ver 2.1.9 from the Seplos website in order to enable Bluetooth function, which I did via the software.

Seplos bms configuration Bolivia

I have also enabled couple of other functions in the software, the 2 immediately...

Need help to start integration with Seplos BMS 3.0. Describe the solution you'd like. Guidance to implement this. Additional context. I have Bluetooth proxy near BMS, but I ...

[I][seplos_bms:031]: Telemetry frame received [D][sensor:124]: "seplos-bms cell voltage 1": Sending state 3.28800 V with 3 decimals of accuracy [D][sensor:124]: "seplos-bms cell voltage 2": Sending state 3.30400 V with 3 decimals of accuracy [D][sensor:124]: "seplos-bms cell voltage 3": Sending state 3.31600 V with 3 decimals of accuracy [D][sensor:124]: "seplos-bms cell voltage ...

You do need to unplug SA when you go into BMS configuration mode, but you have to disconnect the other BMS comms wires anyway to do that. ** SA does have some "quirks" with Seplos BMS cell voltages (hence wanting to run the PC app as well), but several people have reported to SA. Hopefully a fix will occur "soon".

Allerdings gehe ich davon aus, dass es an den BMS Einstellungen meines Seplos BMS V2 liegt. Die gleiche Anlagenkonstellation (Deye Sun 12K, 2 PV Strings und Seplos BMS verbunden über CAN) bei meinem Nachbarn mit Seplos BMS V1 zeigt dieses Verhalten eben nicht. Da wird der Ladestrom noch vor dem Erreichen der 100% heruntergenommen.

the world. Since we are passionate about the battery industry, we are fast growing in our revenue and customers" trust, attributed to a team of professional engineers, businesses expanded to Electric Vehicle Battery, Home Energy Solutions, Medical Equipment ...

Using the tool of choice open the directory (folder) for your HA configuration (where you find configuration.yaml).; If you do not have a custom_components directory (folder) there, you need to create it.; In the custom_components directory (folder) create a new folder called bms_ble.; Download all the files from the custom_components/bms_ble/ directory (folder) in this repository.

I've now connected all four FTDI adaptors (the two ET112 power meters and the two Seplos BMS batteries) to the one hub which is in turn connected to the Cerbo GX and it is all working without any glitch for several days. Before, I would randomly loose connection to either one of the Seplos BMS. The result is a much tidier and stable configuration.

Hi all I now have two 200A Seplos BMS, each with 16 280Ah Eve cells. DIP switches are set as per the manual, ie pack 0 is all off except sw 5, pack 1 only has sw 1 on. Pack 0 has Victron/SMA protocol selected Pack 0 and 1 are interconnected with a standard RJ45 patch cable CAN cable is...

At first I had no way to coordinate my victron multiplus 2 and seplos bms version 10c. There was a lack of time and understanding of how they should work together. Then my ...

The steps below apply to many different batteries that use the Seplos BMS: Shoto; Lithium batteries South Africa (LBSA) Trophy battery; This guide established RS485 communication between SolarAssistant and the battery. ...

Kurzanleitung: Disclaimer: Das Ganze killt im Zweifelsfall die Garantie von Solaredge, da die Lösung keine Freigabe hat, ich sehe das persönlich entspannt, da nur ein vorausgewählter Batteriespeicher für den Hersteller sichtbar ist, wenn das System ans Internet angeschlossen sein sollte. Das Ganze ist eine mögliche Lösung, keine Haftung für eventuellen ...

It would be very difficult for the Seplos balancer to cause any trouble IMHO. Mostly because it is quite manual: you must press the power button to enable the balancer board. It sits in standby mode for up to 10 hours. If it does not receive a signal from the BMS to begin balancing in that time frame, it shuts itself off.

The white one in the middle is what came with the BMS direct from Seplos. I asked Seplos to supply it in order that I got a compatible convertor. The other two were purchased online. But now I look at the Seplos website I see that although it says for use with Seplos smart BMS it also clearly states USB convertor. See the

attached pic.

Thanks for posting the configuration. I am about to have a Sunsynk 5.5 ECCO commissioned and noticed that the yellow Comms cable to the battery (also a Seplos) is not marked at either end as shown in the manual, so I was a little confused as to its orientation.

Good news, thank you. That's interesting, having a mix of canbus and rs485 version depending of who is the master, the battery bank could be use with voltronic or deye inverter !! I need to ask seplos if this configuration is supported. I'm tempted to say yes since the battery inter comms...
