

Seychelles novus green energy systems

What does the Seychelles government do?

The Seychelles Government is committed to providing adequate, reliable and affordable energy to meet future energy consumption needs and to underpin strong economic growth through consumable energy initiatives. The Seychelles enjoy favourable conditions for renewable energy (RE) resources, such as wind and solar.

How important are renewables in the energy mix of Seychelles?

What is the role of renewables in electricity generation in Seychelles? What are the main sources of renewable heat in Seychelles? Renewables are an increasingly important source of energy as countries seek to reduce their CO2 emissions and dependence on imported fossil fuels.

Is a 100% renewable Seychelles power supply possible?

The study 'A 100% Renewable Seychelles' (Hohmeyer, 2016) indicates that a power supply solely from renewable sources is technically feasible. With regards to the three islands, Mahé; as the main island enjoys the service of a reliable electricity system, which services practically every citizen and has very few downtimes.

What is Seychelles' energy policy?

Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated. This 6 MW power plant can produce up to 2% of the Seychelles' power and is located on Mahé Island. It is expected that the wind farm will replace 1.6 million litres of diesel fuel annually.

How is electricity produced in Seychelles?

Electricity for the island nation of Seychelles is primarily produced by diesel generators which must import their fuel (69 MW on Mahe and 12 MW on Praslin). Energy policy calls for 15% renewables by 2030. In June 2013, the first wind farm in Seychelles was officially inaugurated.

How does UNDP support the Seychelles Energy Commission?

Through the Climate Investment Platform, UNDP is supporting the Seychelles Energy Commission's initiative to make the adoption of renewable energy accessible to the population that would otherwise not be able to afford to do so.

Now, thanks to a 25,000 Euro grant from the German Federal Foreign Office, through the German Embassy in Nairobi, Kenya, a new, modern, and powerful photovoltaic ...

"The ambitious Seychelles" 100 percent Renewable Energy Strategy (SeyRES 100) aims for a 15 percent transition to renewable energy sources by 2030; it includes ...
