Rhode Island Energy will deploy Landis+Gyr's Gridstream Connect AMI network and Revelo smart meters across its service territory. The rollout follows the regulatory approval given in September 2023, which authorised up to \$153 million for the initiative and forms part of Rhode Island Energy's grid modernisation activities to enable the integration of renewable ...

Smart energy systems are being led by demand, met by supply that may well be increasingly variable as nations become increasingly reliant on renewables. For this reason, a basic device like the smart meter is becoming pivotal to navigate levels of supply and demand and help users to make better-informed decisions about their energy use.

Energy in your State. Pennsylvania's Renewable Portfolio Standards (RPS) require a minimum percentage of energy sold in Pennsylvania to come from renewable resources. Pennsylvania ranks 16th nationwide for renewable electricity net summer capacity and 17th for generation. Please click here for the Environmental Disclosure label.

Smart Energy should not be allowed to continue to misrepresent the nature of the rebate and respect individuals who do not wish to use the company. Business response. 07/18/2024.

Bouvet Island's story begins in 1739, discovered by the French naval officer Jean-Baptiste Charles Bouvet de Lozier. However, due to inaccuracies in charting its coordinates, the island would become a phantom, missing from maps until it was rediscovered in 1808 by the British sailor James Lindsay. This small, uninhabited volcanic island ...
