

Smart helio Belgium

Does smarthelio warm up the planet?

The planet warms up and so does Smarthelio. The "doctors of solar plants" got selected by Verbund x Accelerator Program 2022 to collaborate with the Austrian utility, thanks to their plug-and-play solution that can be integrated into any solar system and generate up to 5% more clean energy.

Why should I use smarthelio?

SmartHelio quickly proved to be the ideal solution for us. They not only identified all the errors we found with our current monitoring system but also uncovered additional failures we weren't aware of.

How will whataventure work with smarthelio & Verbund?

Whataventure (who helped to organize the event) would work in sync with Smarthelio and Verbund to ensure that the project is always aligned with its clear objective; increase energy systems' performance. Both teams will work together over the next 5 months as per the milestones decided during the event.

SmartHelio is a clean-tech start-up based out of Lausanne Switzerland. We optimize the return on investment for both solar roof-top and mini/micro-grid companies, and their clients using our IoT sensor technology and AI-based ...

SmartHelio announces the appointment of the first set of Executives (Left to Right) Neeraj Dasila, Chief Technology Officer (CTO) and Shankaransh Srivastava, Vice-President (VP) Marketing SmartHelio. Lausanne, Switzerland, January 6, 2022: Neeraj Dasila, Head of Technology & Operations at SmartHelio, was appointed as the Chief Technology Officer (CTO), while ...

SmartHelio provides a software that helps solar utilities automatically predict and prevent downtime disruptions. We help solar utilities to generate extra \$200k per plant income on \$10k ...

What began as an EPFL spin-off has blossomed into a global force for sustainable change, with offices in Switzerland, India, and the US. Our journey is driven by a simple yet powerful belief: that technology can and must serve as a bridge to a cleaner, more sustainable future.

The planet warms up and so does Smarthelio. The "doctors of solar plants" got selected by Verbund x Accelerator Program 2022 to collaborate with the Austrian utility, thanks to their plug-and-play solution that can be integrated into any solar system and generate up to 5% more clean energy. A mission with a common objective: to gain speed in the transition to a green global ...

The planet warms up and so does Smarthelio. The "doctors of solar plants" got selected by Verbund x Accelerator Program 2022 to collaborate with the Austrian utility, thanks to their plug-and-play solution that can be integrated into any ...

Smart helio Belgium

Leading solar asset performance management software, advanced analytics & machine learning, that optimizes energy performance and minimize manual effort.

The device continuously monitors the panel's performance data (Voltage, Current and Temperature) and locally processes it using the embedded AI capabilities. HelioHealth is smart enough to detect faults locally and sends an advance ...

The GENTE project has received funding in the framework of the joint programming initiative ERA-Net Smart Energy Systems" focus initiative Digital Transformation for the Energy Transition, with support from the European Union's Horizon 2020 research and innovation programme under grant agreement No 883973.

SmartHelio is a B Corp startup based in Switzerland, that provides efficient software solutions for solar asset scaling, operational excellence, and climate change mitigation, with the aim of ...

SmartHelio provides a software that helps solar utilities automatically predict and prevent downtime disruptions. We help solar utilities to generate extra \$200k per plant income on \$10k spent using our software, by preventing 700 faults per year.

The solar industry is evolving fast. Extracting maximum benefit during the O& M phase is the key challenge for its sustainability. Industry's pressing issues like optimum cleaning cycles to minimize water usage and in-situ module degradation estimation for insurance claims need precise measurements of module parameters during operations.

SmartHelio's proprietary IoT sensor and intelligent software improve the performance and lifespan of solar panels. With the funds, SmartHelio plans to scale its product. The startup is a Venture Kick winner and Venture Leaders alum.

"The future depends on what you do today." - Mahatma Gandhi . The rise of predictive analytics and preventive maintenance in the solar industry has gained significant attention in recent years, in a rapidly expanding industry, with the US solar market projected to grow by 20% and Europe's solar capacity estimated to double by 2030, the urgent need for digitalization and ...

SmartHelio is a clean-tech start-up based out of Lausanne Switzerland. We optimize the return on investment for both solar roof-top and mini/micro-grid companies, and their clients using our IoT sensor technology and AI-based data analytics.

SmartHelio is a Certified B Corporation. SmartHelio (Nov 2019) is a deep data analytic company for energy. We run a SaaS model for energy companies to maximize the performance of the solar plant.

The New Smart Bar: The Future of Discreet Vaping from Helio Supply In the ever-evolving landscape of

Smart helio Belgium

vaping technology, we here at Helio Supply have stepped up with an innovative new product that promises to change the way you enjoy your cartridges. Meet the Smart Bar, an incognito precision voltage cart battery design

Information on valuation, funding, cap tables, investors, and executives for SmartHelio. Use the PitchBook Platform to explore the full profile.

What began as an EPFL spin-off has blossomed into a global force for sustainable change, with offices in Switzerland, India, and the US. Our journey is driven by a simple yet powerful belief: ...

Autopilot software seamlessly plugs-in into your SCADA / CMS platform, extracts information such as equipment specifications, maintenance reports, Single Line Diagram, thermographic images etc., to create a digital twin within minutes and then provides results from day 1

Autopilot: A unified platform that integrates with SCADA/CMS systems to create a digital twin of solar plants, providing real-time fault prediction, diagnostics, and actionable insights for operational and financial efficiency.

SmartHelio team was one of the 15 startups who were selected from among 600 applications for the Free Electrons program. The 6th edition of the ultimate energy innovation program - Free Electrons ended in São Paulo, Brazil recently. SmartHelio team was one of the 15 startups who were selected from among 600 applications received for the program this year.
