

How much does solar PV cost in Japan?

Particularly noteworthy is that in the efficient scenario the generation cost was 13.1 yen per kilowatt-hour (/kWh), approaching the average power exchange electricity price. Based on the above cost structure analysis and findings from existing research, we estimated the generation cost for solar PV in Japan in 2030 based on several scenarios.

Why do solar panels cost so much in Japan?

According to this study, hardware costs (module cost in particular) are higher in Japan, and other costs are lower in Japan than in the US. The study suggests that this may be related to the way distributors of residential solar PV and small commercial solar PV sell the products.

How has solar PV accelerated in Japan?

Deployment of solar PV has accelerated in Japan as well, after the introduction of the Feed-in Tariff system (hereinafter referred to as FIT) in July 2012, and the cumulative installed capacity of solar PV has reached 23 GW by the end of 2014. System prices are declining rapidly, along with the wide deployment of solar PV as described above.

Why do distributors in Japan sell solar PV?

This is due to the way distributors in Japan sell solar PV to customers; they cross-sell PV to customers purchasing other products and services such as appliances, and new construction and renovations of home.

How much does a solar PV system cost in Germany?

In Germany, the figure dropped from \$6.6/W in 2007 to \$2.1/W in 2014, recording a decline of 68%. Meanwhile, the price of solar PV systems in Japan is said to be relatively high compared to global standards. According to IEA-PVPS (2015), the solar PV system price in Japan in 2014 was \$3.5/W for residential solar PV and \$2.5/W for ground-mounted PV.

Are solar panels subsidized in Japan?

Local subsidies for solar panels in Japan varies throughout municipalities. Here are some main subsidies in Tokyo and its greater area: Tokyo: Offers up to 950,000 yen for storage batteries under specific conditions, with an additional fixed subsidy of 100,000 yen for solar systems.
