What is solar energy in UAE?

Solar Energy in UAE is a rapidly growing sector with a strong government focus on renewable energy. The UAE has set a goal to meet 7% of its energy needs through renewable sources by 2021, and solar energy is a key contributor to this target.

How is the UAE promoting solar energy?

The government has invested heavily in the development of solar energy infrastructure in the country, with a focus on large-scale solar power plants. The UAE has also implemented several policies to encourage the use of solar energy, such as providing incentives for businesses and households to install solar systems.

Why should we use solar energy in Dubai?

Traditional sources of energy like Gas, oil, coal, etc. are diminishing. So using solar energy reduces our reliance on them and ensures sustainability for future generations. Now you can support and take part in our leaders' vision for Dubai - to create a smart, sustainable city.
