

A summary of Sint Maarten's solar markets. In 2014, Sint Maarten's council of ministers sanctioned the National energy policy document. This document was supposed to usher in a new era of renewable energy in the Caribbean Island country. More specifically, the policy document envisioned an 80% renewable energy capacity by 2020.

However, NV GEBE maintained the long-standing company policy, which indicates that customers with outstanding bills, who would like to establish a repayment plan, are required to pay 50% upfront and payment arrangements for the remainder of the outstanding balance. ...
