Solar panels in Helsinki. Solar energy in Finland is used primarily for water heating and by the use of photovoltaics to generate electricity. As a northern country, summer days are long and winter days are short. Above the Arctic Circle, the sun does not rise some days in winter, and does not set some days in the summer. Due to the low sun angle, it is more common to place solar ...

Manual for solar box cookers ... Finland, 1995 (New version in 1998) You can order a better edited paper copy of this booklet by sending \$5 (from abroad, if you use a check please leave the recipient part empty since it would cost us \$20 to cash it) or 20 mk (from Finland) (incl.

Solar projects across Finland have been given the green light after grant agreements were signed with the European Climate, Infrastructure and Environment Executive Agency. A total EUR27.5 million ...

Even small sauna stoves use 6kW of electricity. You would need quite big array of solar panels for that and a lot of battery capacity for electricity storage. So quite hard to use just solar panels. You would be better of just adding solar panels for your house and heating up sauna with electricity you get from electric company. Or use wood stove.
