People can understand that a generator provides power, they'll understand that a solar generator is a device that provides power and can be charged with solar, just the same as a "gas generator" would be pretty well understood to be a generator that runs on gasoline. Just "generator" on its own would probably be assumed to run on gasoline.

The Anker 757, a mid-sized generator, impressed our testers with its smart design, durable construction and competitive pricing.. With a 1,800-watt capacity, the Anker 757 is best-suited for ...
