Despite solar capacity of just 7% in the country, Uganda's eight hours of sunshine per day represents huge potential for solar power's development. Attracting investment is key. As part of efforts to scale up solar ...

The introduction of PV is therefore done in its own unique way. Over the past 10 years, the sale of solar kits - for example in the form of a 15-watt peak solar panel, battery, and LED lamp - has become big business. But that market is now quite saturated according to Boldewijn Sloet, chief executive officer at SolarNow.
