Building a garage, erecting a conservatory or putting solar panels on your house will no longer require planning permission in Guernsey. A list of exemptions to the island's planning policies have ...

Solar water heating systems, or solar thermal systems, use energy from the sun to warm water for storage in a hot water cylinder or thermal store. Because the amount of available solar energy varies throughout the year, a solar water heating system won't provide 100% of the hot water required throughout the year.

A typical Guernsey home has at least one roof that faces east, south or west, or a flat roof that may be open to all the sun's orientations. From a few panels to four panels or more and typically 6 to 10 panels, you can maximise your generation by maximising your roof spaces.

Finding 100% American-made solar panels can be complex. Whereas many American solar companies manufacture their solar panels overseas, even those that manufacture solar panels may not source all ...
