Solar is an investment unlike a car. First of all solar, connected to net metering can reduce the electricity bills significantly which is how you recover the cost of solar (and you can recover that initial cost within 2-4 years depending on the electricity price increase). Also electricity prices will keep going up especially in Pak.

I have decided to install solar panels in my home in Karachi. My bills in summers last year used to be around 40k-50k. I can only expect it to increase with the rising electricity costs. I went through some solar posts on Reddit and Facebook and I find it difficult to understand all the terminology and concepts around solar panel installation.

The average cost to install solar panels is around \$26,600, and most homeowners pay between \$4,500 and \$53,000. Keep in mind that these prices don't consider the federal investment tax credit (ITC), which can effectively reduce those costs by up to 30%.

Best Solar Panel Rates in Karachi. The cost of solar panels can vary significantly depending on the brand, quality and size of the system. In 2024, the best solar panel rates in Karachi are typically between PKR 40,000 to PKR 200,000 per panel, depending on the wattage and technology used.
