

Is solar energy a reliable source of energy in Palestine?

In Palestine, solar energy is a reliable source of energy due to its high average radiation and sunshine rate per day (Daoud, 2018), Yet, the yearly progress of the solar energy is around 1% only as indicated by the Palestinian Energy Authority (PEA) plan (PEA, 2013). Fig. 1. PV panel project at Palestine Technical University - Kadoorie.

What is the future of solar energy in Palestine?

Solar energy can be a major contributor to the future Palestinian energy supply, with its high potential in the area. Palestine receives about 3,000 hours of sunshine per year and has an average solar radiation of 5.4 kWh/m. Domestic solar water heating (SWH) is widely used in Palestine where almost 70% of houses and apartments have such systems.

Can solar energy help alleviate poverty in Palestine?

Several groups and NGOs have already paved the way for the broader use of solar energy in Palestine. Sunshine4Palestine is a great example of how a group can utilize solar energy to help alleviate symptoms of poverty.

What is IFC's rooftop solar energy facility in Gaza?

The Palestine Real Estate Investment Co's (PRICO) rooftop solar energy facility is IFC's first large-scale solar energy installation in Gaza and is supported by the IFC-Canada Climate Change Program.

Why is solar power important in Palestine?

The solar power can be a key supplier of energy to the forthcoming generations in Palestine, due to the total amount of yearly sunshine's hours (3000 h) and annual solar radiation (5.4 kWh/m). Furthermore, solar water heating (SWH) is widely used in where about two third of residents own such systems.

How can Palestine reduce its reliance on imported energy carriers?

Palestine can reduce reliance on imported energy carriers by deployment of clean energy systems, especially solar, geothermal and biomass. Palestinian areas has large alternative energy potential which can be harnessed by a futuristic energy policy, large-scale investments and strategic assistance from neighbouring countries like Jordan and Egypt.
