

Solar panel system house Christmas Island

Why did we install solar & battery storage systems on Christmas Island?

Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park. We installed solar and battery storage systems at two sites on Christmas Island for Parks Australia to provide clean power to their main headquarters and research field station.

Does Christmas Island National Park have solar & battery storage?

Solar and battery storage for Christmas Island National Park. Christmas Island - home to the greatest migration of red crabs in the world, and an island that is almost all national park.

Why should you choose An islanded Solar System?

On the one hand, it will enable you to continue to power your home with locally-produced solar generation even in the event of a grid outage. On the other hand, an islanded system has no risk of pushing excess electricity onto the grid, making it safe for utility workers to work to restore regular service.

Are solar panels a lifesaver?

For one, if you live in an area where electrical service is frequently interrupted—whether due to hurricanes, wildfires, or even ice storms leading to downed lines—having a storage system for backup power and the ability to continue to refill the battery with electricity from your solar panel system for power can be a lifesaver.

How long does solar installation take?

Solar installation is the fun part, our customers get to see the whole system come together. Installation timelines range from one to five days. Monitoring insures your solar panels are working properly by tracking the output of your solar system. You gain 24/7 peace of mind that your whole system is working effectively.

Is a solar plus storage system a good idea?

On the other hand, an islanded system has no risk of pushing excess electricity onto the grid, making it safe for utility workers to work to restore regular service. There are many reasons why having a solar plus storage system with islanding capability may make sense for your needs.
