

Does Tunisia have a solar power plant?

First utility-scale photovoltaic plant (10 MW, in Tozeur) was commissioned in 2019 on German money. Tunisia aims to generate 30% of its electricity from renewable sources by 2030. The country currently gets only 3% to 6% of its electricity from renewable sources, mostly from wind and hydro. Solar energy capacity is at 35 megawatts (MW).

What is the Tunisian Solar Plan?

The Tunisian Solar Plan contains 40 projects aimed at promoting solar thermal and photovoltaic energies, wind energy, as well as energy efficiency measures. The plan also incorporates the ELMED project; a 400KV submarine cable interconnecting Tunisia and Italy.

What is TuNur energy doing in Tunisia?

In Tunisia, Nur Energie is developing the world's first CSP solar export project between North Africa and Europe. For more information about the TuNur project please visit the TuNur company website:

Why should you invest in solar power in Tunisia?

Nur Energie has built and maintained a solar weather station for 3 years on the TuNur site to receive real time solar data on the ground. Tunisia has up to 20% better radiation than some of the best sites in Europe, and the Sahara desert provides significant land to develop large scale solar power projects.

What is the productivity of PV solar systems in Tunisia?

With these favourable conditions, the productivity of PV solar systems in Tunisia is very high. According to IRENA's Global Atlas, annual electricity production by PV solar systems varies between 1 450 kWh per kilowatt-peak (kWp) in the northwest region and 1 830 kWh/kWp for systems installed in the extreme southeast region.

How many solar collectors are installed in Tunisia?

From the commercialisation of SWH systems in 1982 until the end of 2018, the cumulative total area of solar collectors installed in Tunisia is estimated at 1 040 000 m², as shown in Figure 28.

The solar plant is being implemented by Kairouan Solar Plant, a project company registered in Tunisia and fully owned by AMEA Power, and will be located in Metbassta, Kairouan governorate. The project is being financed by IFC, a member of the World Bank Group, and the African Development Bank (AfDB).

Tunisia's energy ministry on 17 October launched a "call for projects" to potentially add up to 200MW of solar PV capacity, setting the deadline for proposals at the end of January 2025.

Project description . As part of the Government of Tunisia ("GoT") commitment to reduce greenhouse gas

emissions ("GHG") under the Paris Agreement and its updated Nationally Determined Contributions, and to meet electricity demand growth, while reducing the fiscal burden of importing gas, the GoT has an ambitious plan to increase the renewable ...

Tunisian solar panel installers - showing companies in Tunisia that undertake solar panel installation, including rooftop and standalone solar systems. 38 installers based in Tunisia are listed below. Solar System Installers. Tunisia. Company Name Region Battery Storage ...

Light Group Holdings Ltd trading as The Solar People is a fully registered MCS solar panel installer. Trading Address: 5 - 9 Reeds Business Park, Balby Carr Bank, Doncaster, South Yorkshire, DN4 8DP. Registered Address: One Oaks ...

TUNIS, Tunisia (Wednesday, 19 October 2022): Today, during the Salon International de la Transition Energétique in Tunis, SolarPower Europe launches the second edition of its solar investment opportunities report for Tunisia. This new publication builds on the 2020 edition and reflects the country's post-pandemic updates to the 2009 Plan Solaire ...
