Is Sweden a planetary system?

Get ready for the most peculiar road trip that will help you understand the vastness and emptiness of the solar system--and Sweden. The Sweden Solar System is the world's largest model of our planetary system, at a scale of 1:20 million. The sun is represented by the Globe Arena in Stockholm, the largest spherical building in the world.

Is Sweden the world's largest planetary system?

Unbeknownst to most visitors, the country is home to the world's largest permanent model of the planetary system known as The Swedish Solar System but often - as below - called Sweden Solar System, which is a bit odd if you ask me. Okay, there's a little artistic licence used here, I will admit!

Where can I find information about astronomy in Sweden?

At each planet, a small exhibit provides information about astronomy and the mythological figure after whom each planet is named. Even a few non-planets are represented in the Swedish solar system. Sedna, a trans-Neptunian object, can be found 912 km from the Globe Arena in the "Technical House" in Luleå;
