

Will energy storage continue to grow in Spain?

Energy storage is also expected to continue its growth as the Spanish government announced its support for the development of technology for energy storage of renewables, to increase the system's flexibility and the stability of the network.

Will TotalEnergies build a solar farm in Iraq?

The new project is TotalEnergies' second GW-scale project in Iraq. Image: TotalEnergies French energy major TotalEnergies has agreed to build a 1GW solar farm in the Basra region of southern Iraq in a deal that also sees substantial investments in new gas networks and seawater treatment totalling US\$10 billion.

How much solar power does Iraq need?

Iraq has an ambition to have an installed solar generation capacity of 10GW by 2030, representing 20-25% of its energy mix, in order to reduce its carbon footprint and its reliance on fossil fuel-based power generators. The country has also signed deals with both PowerChina and Masdar totalling 4GW as it seeks to boost its deployment of renewables.

What is the Spanish solar photovoltaic market?

The Spanish solar photovoltaic market is Europe's second largest market and is expected to continue its trajectory as one of the world's most interesting markets years as the government moves toward carbon neutrality and the PPA market continues its growth.

Where is the Basrah electricity project located?

Located in Artawi, near the southern port of Basra, Iraq, this special project was initiated by the Iraqi government and TotalEnergies with a total investment of \$27 billion to supply clean electricity to the Basrah regional grid.

Is Spain a good place to upgrade a power plant?

Spain, with its generous incentive program, has become a great testing ground for revamping projects, having installed over 4 GW between 2008 and 2009, surpassing any other country. However, replacing failing components poses challenges.
