

Solarway suppliers Vatican City

How much solar energy does the Vatican produce a year?

Thanks to a unique photovoltaic plant installed on the roof of the Vatican Audience Hall, the Papal State has been producing 300 MWh of solar energy every year since its installation in 2008. The project was planned and managed by BayWa r.e. with the PV modules, inverters and its installation donated by solar technology provider, SolarWorld.

What is solarway?

Solarway is a forward thinking creative think tank that develops personalised and sustainable power solutions for people with limited or no access to power.

Why should you choose solarway?

The development and education of our children is key to a better future and at Solarway we feel it is our duty to help parents provide better brighter environments by developing more safer, affordable, durable and sustainable solutions to light and power.
