

The following factors affect the charging times: the current level of your battery charge, your solar battery capability, the settings and capacity of your charging stations, and the energy source of your charging station.. Full-electric vehicles can take between 1 and 4 hours to fully recharge, while plug-in hybrids typically take 4-8 hours.

Here's why partnering with SolarWide for your REC Alpha Pure-RX Series is the smartest choice Expert Installation Our REC Certified Solar Professionals ensure your system is installed flawlessly, maximizing energy production and system lifespan.
