

As an exclusive licensee of Solatube International, Inc. Solatube Worldwide Sales markets and sells Solatube Daylighting Systems and Solar Star Fans to Europe, Latin America, The Middle East, Asia, and Africa. The company also manages the distributor networks in these countries

SkyVault M74 DS-740mm - Solatube. Nová rada SkyVault M74 DS je modulární systém, který poskytuje obrovské mnozství denního svetla do velkoobjemových prostor ve správném spektrálním slození. Rada SkyVault je k dispozici v následujících konfiguracích:

Available in 4 in. (100 mm), 6 in. (150 mm), 8 in. (200 mm) and 11 in. (280 mm) high flashing options; used on pitched or flat roof systems. The 4 in. (100 mm) high flashing is recommended for most residential applications because of its low profile

The SolaMaster 330 DS is designed to maximize light output at any time of day. It effectively captures low-angle rays in the morning and late afternoon, and collects high-angle rays at midday for powerful performance.

We recommend speaking to a Solatube daylighting expert if you would like more information on the approximate length of your company's project. Who is the best person to install Solatube's skylights? If you would like to install a Solatube daylighting system in your home, it is generally best to hire a Solatube Premier Dealer to carry out ...

Extension tubes can be added in increments of 16 in. (400 mm) or 24 in. (600 mm) for long runs without sacrificing performance. The secret is the unrivaled reflectivity of Spectralight® Infinity tubing, making it possible to create long tube runs up to 30 ft. (9 m).

Model Solatube 290 DS-350mm ze série Brighten Up je ideálním svetlovodem pro prosvetlení prostor jako jsou vetsí chodby, koupelny, kuchyne, schodiste nebo pracovny v komercních budovách. Sestava obsahuje kopulovou technologii fresnelových cocek Raybender 3500, Raybender Flex, kopulovézrcátko Light Tracker V, které ...

Natural Light Goes Big with the SkyVault® Series. The core of the SkyVault R Series, our largest tubular daylighting devices, is the M74 DS with tubes 29" wide and extending up to 100' long to fill the largest spaces with natural light.

Our unique telescoping tubing system allows for easy adjustment in the field so tubing rarely has to be cut. Spectralight® Infinity Tubing has the highest reflectivity in the world making it possible to create extensive tube runs of up to 20 ft. (6 m) for the Solatube 160 DS and up to 30 ft. (9 m) for the Solatube 290 DS. 160 DS; 290 DS

When comparing traditional skylights to solar tubes, specifically Solatube tubular skylights, it's clear that Solatube offers superior performance, versatility, and energy efficiency. From advanced light-capturing technology to energy efficiency, from 24/7 illumination to versatile installation options, Solatube tubular skylights are designed ...
