

Solomon Islands lithium safe battery box

What is a lithium Safety Store?

Equipped with advanced early warning systems, plus fire-suppression technology, including a Kevlar®-reinforced structure and specialized heat-blocking materials, the Lithium Safety Store(TM) is a fortress against lithium battery fires. Its built-in water inlet fire extinguishing port allows any unit to be manually flooded via a one-way inlet valve.

What is a bat-safe battery box?

Excludes DG or bulk items (flooded or large lead acid batteries, large panels and generators). The Bat-Safe battery box is the ultimate safety protection against unexpected fires and smoke when storing, transporting and event charging Lipo (and other Lithium) batteries! Finally an all in one bulletproof solution to take any anxiety away.

Why is lithium battery storage important?

A quick Google search yields hundreds of such incidents, underscoring the critical importance of proper lithium battery storage. This issue is now a top priority for boat owners, captains, and marina managers alike, who are all keenly aware of the risks and the need for effective safety measures.

What is a test standard for lithium batteries?

Test standards to cover the storage and carriage of dangerous goods such as lithium batteries by air or sea. International Organisation for Standardisation ISO 16104(2007). Test standards to cover the transport, storage and packaging of dangerous goods including lithium batteries.

Are lithium battery fires a risk?

Fire on motor yacht MY Blue Magic, bay of Naples, Italy. Lithium battery fires on boats are not just a risk; they're a reality, with incidents causing the destruction of multiple yachts and severe financial losses now a weekly occurrence.
