

Solplanet monitoring Jamaica

What is solplanet app?

Solplanet is a free energy monitoring app developed by AISWEI Technology Co. Ltd. for Android devices. This app is designed to help users set up, commission, and monitor their Solplanet inverters with ease. With Solplanet, users can easily monitor their energy consumption, production, and efficiency.

How does solplanet work?

The app provides real-time data on energy generation and consumption, allowing users to track their energy usage and make adjustments to optimize their energy consumption. Additionally, Solplanet comes with a comprehensive dashboard that displays all the important information about the inverter, such as power output, voltage, and current.

What is solplanet cloud based monitoring?

Our cutting-edge cloud-based monitoring system empowers you to monitor real-time energy generation via the Solplanet Cloud, offering unparalleled accessibility from anywhere. Live data reporting ensures proactive system performance management, swiftly detecting and addressing potential issues.

Why should you choose solplanet?
