SOLV Energy is the new combination of solar construction company Swinerton Renewable Energy and O& M division SOLV, now officially a separate entity from general contractor Swinerton Builders. All existing Swinerton RE employees are shifting to the renewable energy-focused SOLV Energy, effective today.

At SOLV Energy, every individual is passionate about improving our home through high-quality renewable energy. That"s why we"re invested in building and managing state-of-the-art energy systems and storage solutions that maximize production for optimal results.

To accurately detect underlying issues and assess the efficacy of a power plant, performance analysis is essential. Our services range from data analytics to degradation studies. With an all-around in-house team, we"re able to provide design support, energy modeling, commissioning and testing, and many other day-to-day operational needs.

US engineering, procurement, and construction (EPC) contractor SOLV Energy has built over 13GW of solar PV capacity and remains the leading EPC contractor as of the third quarter of 2024.

energy. engineering. planning. Solv supports the mission of government and commercial clients by providing sustainable solutions based on sound engineering, science, economic, and management principles. We are committed to quality and responsiveness while providing value in everything that we do.

SOLV Energy is a solar services provider for utility solar, high-voltage substation and energy storage markets across North America. We believe that good energy has a ripple effect. That"s why we only take on projects that provide cleaner power, better jobs, greater education and a brighter future for our communities.

On the remote island of Malekula, the second-largest island in Vanuatu, a new solar micro-grid is changing the lives of over 2,800 people - boosting local development while contributing to Vanuatu"s sector specific target of transitioning to close to 100 percent renewable energy for electricity by 2030.
