

Meanwhile, we remain optimistic that as a result of the peace agreement and the implementation of the Government of National Unity, the business environment in South Sudan will continue to improve. In 2021, the IMF estimated South Sudan's real GDP growth at +4.5%, with the forecast for this year revised upward to +6.5%.

The power you are receiving can cause your systems to malfunction or fail, rendering them useless to protect and serve the people who depend on them. Revenue Protection Building systems with poor power have a shorter lifetime and require more maintenance, resulting in higher drive up Op costs and slow occupant issue response time.
