EcoFlow RIVER 2 Pro + 220W Portable Solar Panel. Worked bloody great! Bought this to take camping on an unpowered site and it absolutely met all expectations. Charged phones, lights, and ran the 75ltr car fridge with a couple of fans too, just had the solar panel on during the day to keep it topped up and it went all night!

The best way to gauge how many solar panels you need, is to understand and define the power load needed from this system. Power is measured in Watts, and capacity is commonly measured in Watt-hours (multiplying power output in watts by the required number of hours of operation multiplied by a safety factor of 1.5-2). ... Recently purchased the ...
