Why is Jas Chile a leading logistics company?

By receiving this award for the second consecutive year, JAS Chile reaffirms its status as a leading logistics company not only in terms of operational excellence but also as an employer of choice. The company remains committed to nurturing its talented workforce as it continues to grow and expand its global footprint.

How will Spain transform its energy system?

The Spanish government is exploring ways to persuade the private sector to invest \$118 billion (EUR110 billion) for the transformation of its own energy system to expand renewable power generation, modernize its transport system, and refit buildings to make them more energy efficient through 2030.

Why are Spain's energy exports stronger than usual?

Regionally, there have been stronger than usual energy exports due to Spain's energy partnership with France, which experienced a reduction in its available nuclear capacity. Spain is the 8th most attractive market for renewable energy investment as per EY's biannual Renewable Energy Country Attractiveness Index (RECAI) published in June 2023.

Is renewable hydrogen a key to Spain's decarbonization plans?

Renewable hydrogen will be key for Spain's decarbonization plans and to increase renewable electricity and gases. The country's target is to install 11 GW of hydrogen electrolysis capacity by 2030. Spain is launching a significant investment of \$19.5 billion (EUR18.1 billion) to produce and distribute hydrogen derived from renewable energy sources.

Why is energy storage important in Spain?

Energy storage is vital for Spain to make renewable energy a viable independent energy source, helping to reduce or nearly eliminate the need of alternative source back-up systems. Demand for this type of technology is huge in Spain as renewable energy has become the most important energy source produced locally.

Why are ports important to Jas?

Seaports are critical components of the global transport system. JAS is present with our own port terminals at every port in Norway as well as via our partners in countries around the globe.
