Panel solar Oximo WireFreeTM: Tecnología monocristalina con un rendimiento excelente para todos los niveles de luminosidad y con cualquier orientación de la ventana

Solar-powered sun shading is driven by an integrated electric motor. The motor is powered by the solar panel. The solar panel captures light and converts it into electric energy, regardless of the sunlight's intensity. The generated energy is stored in the battery. Direct sunlight is not necessary for the solar panel to generate energy.

the solar panel. Important! The adhesive tape should never be touched directly with fingers (or other contaminants) prior to adhesion. 1) Clean solar panel bezel corners and window area with alcohol prep pad. Let dry for two minutes. 2) On a table, with the solar panel facing up, apply the 2-sided adhesive to four corners of the solar panel bezel.

The Somfy WF Li-ion Solar Panel can be used for charging Somfy rechargeable batteries. The discrete panel harnesses solar power to recharge batteries that power your motorised blinds. It's convenient and minimises maintenance by reducing the number of chargings.

3 · Balcony solar panels are gaining popularity in Spain, following their success in Germany, where 1.5 million units have been installed. These panels can reduce electricity bills by up to 30% and are easy to install without needing building consent. In Spain, two-thirds of the population lives in apartments, making balcony installations appealing.
